Private Well Construction and Discharge of Water from Wells

The City of Yorkton would like to inform and remind its residents that bylaws are in place that prohibits the construction of private wells within the City of Yorkton. In addition, the discharge of any well water into any sewer within or entering the City without a permit is also prohibited.

A well can be defined as any underground structure that is dug or drilled into the ground in order to obtain, store or divert water. These structures could present potential issues for drainage to adjacent neighboring properties. They can also be a safety hazard if not properly capped and locked, as well as being a source of contamination of ground water sources.

Bylaw 18/2006, Section 3.27 - Private Wells

3.27 No person shall use any alternate source of water supply other than the City water system without first obtaining the written consent of the City. Private Wells within the City are not permitted.

For further information, please contact Environmental Services at 306-828-2470.
